#1. A constituent asked how an operator would respond to a service cat calling 911. There were service dogs that were trained to call 911 if the need arose. No specific answer was given but they would make it a high priority call because of no answer from the person in need.

#4. A constituent was upset with an article he read about Chief Miranda and the Judge Hector Campoy. There was no response to the constituent and the question was noted.

#16. A constituent was upset about a DUI stop that happened to her. She said that the Police Officer entered the wrong body weight into the intoxilyzer and it had made a difference. The individual's license is scanned into the machine and that is how the weight is measured. The constituent was made aware of the process and comments were forwarded to the traffic division.
